

LEADER TECH is READY

TO SUPPORT GROWING CUSTOMER DEMAND FOR EMI SHIELDING AND CUSTOM METAL STAMPINGS

Recent announcements and dramatic changes in the EMI shielding and beryllium copper gasket market have prompted many manufacturers to re-evaluate the continuing reliability of their supply chain partners.

Leader Tech understands your need to maintain quality vendors that are fully committed and capable of providing world-class engineering and customer service as well as fast and economical manufacturing solutions.

If you find yourself evaluating new supply chain alternatives, Leader Tech is fully prepared and staffed to answer any questions you have about transitioning from your current situation.

LEADER TECH PROMISE:

- Instant access to live customer service representatives
- Application engineers are standing by for immediate responses
- Full support capabilities from prototype through high-volume production
- Reliable and modern US manufacturing facilities

RELIABLE SOURCING:

- Stock and custom beryllium copper EMI shielding gaskets
- Precision metal stampings
- Large finger stock assortment
- Electrical contact gaskets
- Ability to use current or develop new tooling alternatives
