Ozone Protection Policy Statement

This letter is to certify that all products provided by Leader Tech, Inc. are manufactured to conform to The Montreal Protocol on Substances that Deplete the Ozone Layer. The Montreal Protocol's aim is to address the depletion of the ozone layer that is created by releasing harmful chemicals (mainly chlorofluorocarbons (CFCs)) into the atmosphere. The Protocol was adopted on 15 September 1987 which bound all 197 United Nations Member States. It aims to regulate the progress in a stepwise manner by creating different timetables for developed and developing countries.

For additional information, please go to:

[Ozone Protection under Title VI of the Clean Air Act | Ozone Layer Protection | US EPA](#)

The materials used in the manufacturing of products comply with all material and/or manufacturing specifications indicated in drawings or specifications as called for on the purchase order. Physical, Electrical and/or Chemical test reports are on file with us or our suppliers for examination and indicate conformance with applicable specifications.
